General Paul Nakasone

Market Gap: Existing Controls Don’t Understand AI

- Data and IP protection
- Third party risk management
- Harmful output control
- Acceptable use enforcement
- Regulatory compliance
- AI usage optimization

EDR/XDR

Proxy/Firewall

DLP

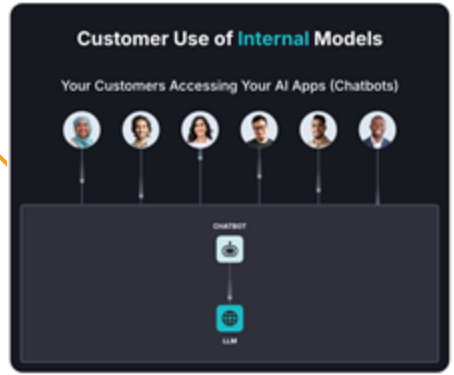

SIEM/SOAR

Existing security controls:

- ✗ Can’t see AI conversations
- ✗ Can’t enforce data/control sovereignty
- ✗ Can’t understand intention
- ✗ Can’t work inline
- ✗ Can’t defend AI attacks
- ✗ Require agents or plugins

“One Ring” to Rule All Enterprise AI Security Use Cases

WITNESS AI

“No Witness, No AI”
- Global CISO
